

## SAFETY DATA SHEET

## 1. Identification

| Product identifier                                     | 1600 DuraPoxy 100% Acrylic Interior Matte Finish Series 121, 222, 333, 555 |  |
|--|--|--|
| Other means of identification                          | None.  |  |
| Recommended use  | Architectural Coating  |  |
| Recommended restrictions                               | None known.  |  |
| Manufacturer/Importer/Supplier/Distributor information |  |  |
| Company name   | Kelly-Moore Paint Co., Inc.  |  |
| Address  | 987 Commercial St., San Carlos, CA 94070                                   |  |
| Telephone  | 1-800-874-4436   |  |
| E-mail   | TAlvarez@kellymoore.com  |  |
| Contact person   | Tiffany Alvarez  |  |
| Emergency phone number                                 | CHEMTREC: 1-800-424-9300   |  |

## 2. Hazard(s) identification

| Physical hazards     | Not classified. |            |
|----------------------|-----------------|------------|
| Health hazards       | Carcinogenicity | Category 2 |
| OSHA defined hazards | Not classified. |            |
| Label elements       |                 |            |

| Signal word                                  | Warning  |
|--|--|
| Hazard statement                             | Suspected of causing cancer.   |
| Precautionary statement                      |  |
| Prevention                                   | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection. |
| Response                                     | If exposed or concerned: Get medical advice/attention.   |
| Storage                                      | Store locked up.   |
| Disposal                                     | Dispose of contents/container in accordance with local/regional/national/international regulations.  |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |
| Supplemental information                     | This product contains Diphenyl Ketone at less than 0.2% which is suspected of causing cancer (See Section 11).   |

## 3. Composition/information on ingredients

#### **Mixtures**

| Chemical name                               | CAS number | %     |
|---|------------|-------|
| Titanium dioxide                            | 13463-67-7 | 20-30 |
| Kaolin                                      | 1332-58-7  | 5-10  |
| 1-Phenoxypropan-2-ol                        | 770-35-4   | 1-5   |
| Silicon dioxide, crystalline<br>silica-free | 7631-86-9  | 1-5   |
| Diphenyl Ketone                             | 119-61-9   | < 0.2 |
|   |            |       |

All concentrations are in percent by weight (kg) unless ingredient is a gas. Gas concentrations are in percent by volume (l).

## 4. First-aid measures

| Inhalation<br>Skin contact   | Move to fresh air. Call a physician if symptoms develop or persist.<br>Wash off with soap and water. Get medical attention if irritation develops and persists. |
|--|---|
| Eye contact  | Rinse with water. Get medical attention if irritation develops and persists.  |
| Ingestion<br>Most important  | Rinse mouth. Get medical attention if symptoms occur.<br>Direct contact with eyes may cause temporary irritation.   |
| symptoms/effects, acute and delayed  |   |
| Indication of immediate<br>medical attention and special<br>treatment needed | Treat symptomatically.  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.  |

## 5. Fire-fighting measures

| Suitable extinguishing media                                  | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).                                   |
|---|---|
| Unsuitable extinguishing<br>media                             | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| Specific hazards arising from the chemical                    | During fire, gases hazardous to health may be formed.   |
| Special protective equipment and precautions for firefighters | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| Fire fighting<br>equipment/instructions                       | Move containers from fire area if you can do so without risk.                                 |
| Specific methods  | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| General fire hazards  | No unusual fire or explosion hazards noted.   |

## 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.  |
|---|--|
| Methods and materials for<br>containment and cleaning up                  | Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. |
|   | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.   |
| Environmental precautions   | Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground.   |
| 7. Handling and storage   |  |

# Precautions for safe handlingAvoid prolonged exposure. Observe good industrial hygiene practices.Conditions for safe storage,<br/>including any incompatibilitiesStore in original tightly closed container. Store away from incompatible materials (see Section 10<br/>of the SDS).

## 8. Exposure controls/personal protection

#### **Occupational exposure limits**

#### US. Workplace Environmental Exposure Level (WEEL) Guides

| Components                        | Туре   | Value   |
|-----------------------------------|--|---|
| Diphenyl Ketone (CAS<br>119-61-9) | TWA  | 0.5 mg/m3   |
| Biological limit values           | No biological exposure limits noted  | I for the ingredient(s).  |
| Appropriate engineering controls  | should be matched to conditions. It<br>or other engineering controls to ma | 10 air changes per hour) should be used. Ventilation rates<br>f applicable, use process enclosures, local exhaust ventilation,<br>aintain airborne levels below recommended exposure limits. If<br>ablished, maintain airborne levels to an acceptable level. |

| Individual protection measures, such as personal protective equipment |   |  |
|---|---|--|
| Eye/face protection   | Use safety glasses, goggles, or face shield to protect eyes.  |  |
| Skin protection   |   |  |
| Hand protection   | Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.   |  |
| Skin protection   |   |  |
| Other   | Wear suitable protective clothing.  |  |
| Respiratory protection  | In case of insufficient ventilation, wear suitable respiratory equipment.   |  |
| Thermal hazards   | Wear appropriate thermal protective clothing, when necessary.   |  |
| General hygiene<br>considerations                                     | Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |  |

## 9. Physical and chemical properties

|  | -                              |
|--|--------------------------------|
| Appearance                                 | Milky white to colored liquid. |
| Physical state                             | Liquid.                        |
| Form                                       | Liquid.                        |
| Color                                      | Various.                       |
| Odor                                       | Slightly ammoniacal.           |
| Odor threshold                             | Not available.                 |
| рН   | 7 - 10                         |
| Melting point/freezing point               | Not available.                 |
| Initial boiling point and boiling range    | Not available.                 |
| Flash point                                | Not available.                 |
| Evaporation rate                           | < 1 (n-BuAc=1)                 |
| Flammability (solid, gas)                  | Not applicable.                |
| Upper/lower flammability or exp            | losive limits                  |
| Flammability limit - lower<br>(%)          | Not available.                 |
| Flammability limit - upper<br>(%)          | Not available.                 |
| Explosive limit - lower (%)                | Not available.                 |
| Explosive limit - upper (%)                | Not available.                 |
| Vapor pressure                             | Not available.                 |
| Vapor density                              | > 1 (Air=1)                    |
| Relative density                           | Not available.                 |
| Solubility(ies)                            |                                |
| Solubility (water)                         | Moderately soluble             |
| Partition coefficient<br>(n-octanol/water) | Not available.                 |
| Auto-ignition temperature                  | Not available.                 |
| Decomposition temperature                  | Not available.                 |
| Viscosity                                  | Not available.                 |
| Other information                          |                                |
| Explosive properties                       | Not explosive.                 |
| Oxidizing properties                       | Not oxidizing.                 |
| VOC (Weight %)                             | 38.83 - 49.35 g/L              |
| 10 Stability and reactivity                |                                |

## 10. Stability and reactivity

| Reactivity         | The product is stable and non-reactive under normal conditions of use, storage and transport. |
|--------------------|---|
| Chemical stability | Material is stable under normal conditions.   |

| Possibility of hazardous<br>reactions  | No dangerous reaction known under conditions of normal use.   |
|--|---|
| Conditions to avoid  | Contact with incompatible materials.  |
| Incompatible materials   | Acids. Fluorine.  |
| Hazardous decomposition<br>products  | Carbon oxides. Metal oxides.  |
| 11. Toxicological inform   | ation   |
| Information on likely routes of  | exposure  |
| Inhalation   | Prolonged inhalation may be harmful.  |
| Skin contact   | Prolonged or repeated contact may dry skin and cause irritation.  |
| Eye contact  | Direct contact with eyes may cause temporary irritation.  |
| Ingestion  | Not available.  |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics | Exposure may cause temporary irritation, redness, or discomfort.  |
| Information on toxicological e   | ffects  |
| Acute toxicity   | Ingestion may cause irritation and malaise. In high concentrations, vapor<br>narcotic and may cause beadache, fatique, dizziness and nausea |

| Information on toxicological effe  | ects  |   |
|--|---|---|
| Acute toxicity   |   | and malaise. In high concentrations, vapors and spray mists are lache, fatigue, dizziness and nausea.                             |
| Skin corrosion/irritation  | Prolonged or repeated contact may dry skin and cause irritation.  |   |
| Serious eye damage/eye<br>irritation   | Direct contact with eyes may cause temporary irritation.  |   |
| Respiratory or skin sensitization  | 1   |   |
| <b>Respiratory sensitization</b>   | Not a respiratory sensitizer.   |   |
| Skin sensitization   | This product is not expected to cause skin sensitization.   |   |
| Germ cell mutagenicity   | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.  |   |
| Carcinogenicity  | The product contains a small amount substance that is suspected of causing cancer. Inhalation of titanium dioxide dust may cause cancer, however due to the physical form of the product, inhalation of dust is not likely. |   |
| IARC Monographs. Overall   | Evaluation of Carcinogenicity   |   |
| Diphenyl Ketone (CAS 119-61-9)<br>Silicon dioxide, crystalline silica-free (CAS 7631-86-9)<br>Titanium dioxide (CAS 13463-67-7)<br>NTP Report on Carcinogens |   | 2B Possibly carcinogenic to humans.<br>3 Not classifiable as to carcinogenicity to humans.<br>2B Possibly carcinogenic to humans. |
| Not listed.  | d Substances (20 CEB 4040.4   | 001 1050)   |
|  | d Substances (29 CFR 1910.1   | 001-1050)   |
| Not regulated.   | This product is not ovposted t  | a course reproductive or developmental effects  |
| Reproductive toxicity  | This product is not expected to cause reproductive or developmental effects.  |   |
| Specific target organ toxicity -<br>single exposure  | Not classified.   |   |
| Specific target organ toxicity -<br>repeated exposure  | Not classified.   |   |

| repeated expective  |   |
|---------------------|---|
| Aspiration hazard   | Not an aspiration hazard.   |
| Chronic effects     | Prolonged or repeated contact may dry skin and cause dermatitis.          |
| Further information | Components of the product may be absorbed into the body through the skin. |

## 12. Ecological information

| Ecotoxicity                   | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. |
|-------------------------------|--|
| Persistence and degradability | No data is available on the degradability of this product.   |
| Bioaccumulative potential     | No data available.   |
| Mobility in soil              | This product is moderately water soluble and may disperse in soil.   |
| Other adverse effects         | None known.  |

## 13. Disposal considerations

| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site.   |
|--|--|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.   |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.       |

## 14. Transport information

#### DOT

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not established. Annex II of MARPOL 73/78 and the IBC Code

Diphenyl Ketone (CAS 119-61-9)

#### 15. Regulatory information

#### **US** federal regulations

gulations All components are on the U.S. EPA TSCA Inventory List.

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

0.1 % One-Time Export Notification only.

#### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

#### Hazard categories

Immediate Hazard - No Delayed Hazard - No Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No

#### SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous No chemical

## SARA 313 (TRI reporting)

Not regulated.

#### Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

## Safe Drinking Water Act Not regulated.

(SDWA)

#### US state regulations

#### US. Massachusetts RTK - Substance List

Kaolin (CAS 1332-58-7) Silicon dioxide, crystalline silica-free (CAS 7631-86-9) Titanium dioxide (CAS 13463-67-7)

#### US. New Jersey Worker and Community Right-to-Know Act

Kaolin (CAS 1332-58-7) Silicon dioxide, crystalline silica-free (CAS 7631-86-9) Titanium dioxide (CAS 13463-67-7)

#### US. Pennsylvania Worker and Community Right-to-Know Law

Kaolin (CAS 1332-58-7) Silicon dioxide, crystalline silica-free (CAS 7631-86-9) Titanium dioxide (CAS 13463-67-7)

#### **US. Rhode Island RTK**

Not regulated.

#### **US.** California Proposition 65

This product does not contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

#### US - California Proposition 65 - Carcinogens & Reproductive Toxicity (CRT): Listed substance

Diphenyl Ketone (CAS 119-61-9) Quartz (CAS 14808-60-7)

#### International Inventories

Country(s) or region Inventory name

Toxic Substances Control Act (TSCA) Inventory United States & Puerto Rico

On inventory (yes/no)\*

Yes

\*A "Yes" indicates this product complies with the inventory requirements administered by the governing country(s).

A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
